Compostable Drawstring Bags

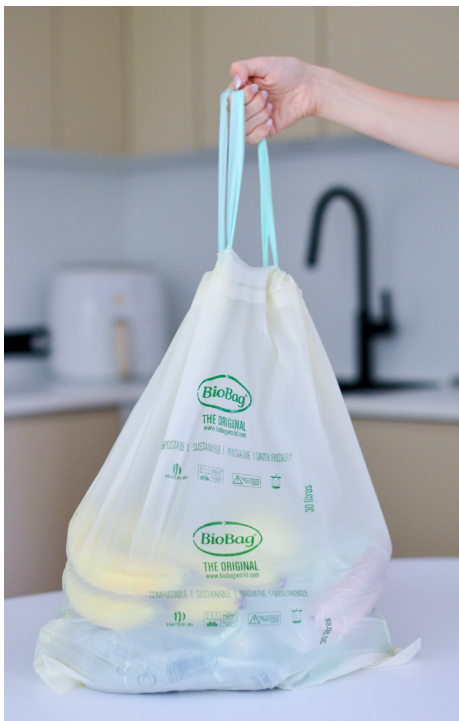

As a global leader in the development and manufacturing of certified compostable and biodegradable products, BioBag is driven to promote sustainability.

For our retail product range, we have developed drawstring bags which are ideal for your conscious customers who want convenience.

The bags come in 30L and 50L, and are fully compostable and biodegradable.

Benefits:

- The drawstring bags are easy and hygienic to use.
- Perfect for lining medium sized pedal bins or built-in waste units
- Strong drawstrings will not break when pulled
- Certified according to the European standard EN 13432 and OK Industrial compost
- Suitable for food and garden waste
- Breathable bags improving hygiene & reduce necessary cleaning of bins
